

BATKO

FR-K90 / FRI-K90

Indoor or Outdoor kiosk Weather Resistant

FR-K90 / FRI-K90

The FR-K90 (indoor) / FRI-K90 (outdoor) All monitors need physical protection in extreme conditions where dust, humidity, rain or snow exist. Our design offers suitable protection for at display in outdoor applications. It's weather design allows maximum monitor protection in extreme temperature (-40C/-40F to +40C/104F). The one inch thick insulated AK fiber inside the doubled walls cabinet creates a physical wall protection against internal condensation. One thermostatic fan insure good air flow through the cabinet during warm temperature. All vents have filter protection to prevent dust and insect infiltration. The inside brackets with up/down and left/right adjustments allow proper positioning of the display. The optional heater is recommended for use in cold temperature.
